Unlocking financial freedom

20 FOREX TIPS:

1. Trade small accounts when you are a beginner. Grow your account through profits, not deposits.
2. Do not set your stop loss too close to the opening position price. It will get triggered by normal market volatility.
3. High leverage isn't free money. Stick to low leverage and manage your money wisely.
4. Forex trading is not gambling. Look for steady profits rather than hunting a few big wins.
5. Plan all your trades in detail before you make them. It makes handling your emotions easier.
6. There isn't a perfect trading strategy, you just have to pick one that suits your personality.
7. When you are following a trend, use a trailing stop to protect your profits.
8. Some currency pairs are volatile and other are more stable, choose the one that appeals to your risk profile.
9. Use your weekend to learn from the past week's trading and to plan for the week ahead.
10. If you keep your positions open for a long time, beware of swap charges.
11. Pay attention to economic calendars, news outcomes can move the market aggressively.
12. Successful traders master their craft, take an online course as a beginner so you can learn the right skills and knowledge.
13. Do not let greed turn a profit into a loss, keep your emotions in check.
14. Remember the goal is to make long-term profits, don't let a single good or bad day change the way you trade
15. If someone has a way of doubling their money each week, then why should they tell you? Stick to proven strategies.

16. There is no such thing as guaranteed profit.
17. Choose a reputable forex broker that offers you trading conditions and currency pairs that match your trading strategy.
18. Boredom is no reason to open a position. Be patient and look for real trading opportunities.
19. Don't get overconfident when you have a big win. Stick to your trading strategy and don't take reckless risks.
20. Don't go against the trends unless you have a lot of capital to sustain the swings.
